

# HDNS Pateley Bridge and Guisecliff Wood

Start: 25/10/2016 09:00  
End: 25/10/2016 16:00

Recorders: Nick Gaunt  
Sue Coldwell  
Sonia Starbuck  
Malcolm Jones  
Bernadette Reid  
Ruth and Jack Upsall  
Andy Woodall and two friends

Weather: After a cold misty start (4°C), became a fine autumn day, calm with sunshine (13°C).

Notes: We assembled in Nidd Walk Car Park and headed off beside the River Nidd towards Glasshouses. The walls along the track had a good selection of mosses and liverworts while several species of fungi were showing in the bordering fields and woodland. After lunch by Glasshouses Dam we ascended through Guisecliff Wood, a damp hillside habitat dominated by birch, to reach Guisecliff Tarn. This small lake was surrounded by trees in full autumn colours, a magnificent sight. As anticipated, the woods had a profusion of fungi, mosses and liverworts.
